Shafts are ground to order from oversize bar enabling us to offer lengths to meet your exact requirements
A **straightness tolerance of 0.005" AOL** and **surface finish of 32Cla Max** is achieved to offer consistency of product.

Shaft lengths from 1 metre to 10 metres long are available on short lead-times subject to stock availability.

Many other grades can be offered, if not listed above please ask about availability.

Millstock Stainless have access to large Mill stocks on the continent
that can be offered on short lead-times

In addition to the above we also offer within our range:

- Heat Resisting Grades • Highly Corrosive Grades • Nickel Alloys
- Yellow Metals • Aluminium • Oil Steels • Engineering Steels

Processing Facilities Offered Include:

- Turning & Grinding • Sawing • Boring & Honing • Heat Treatment
- Profiling • Testing (LRS, ABS, DNV, BV, GL, RINA, +)
 - Deep – Hole Boring • Forging • Slitting
